► **UNDERSTANDING YOUR WATER BILL**

For help understanding your bill, visit [www.waterone.org/YourBill](http://www.waterone.org/YourBill).

**AVERAGE WINTER CONSUMPTION (AWC)** - Calculated daily average consumption used to establish block cut-offs. The first two actual or estimated meter readings taken for billing after January 1 each year will be used to calculate the AWC. Customers will have the benefit of using the higher of their own individual AWC or the District default AWC (average of all customers in same class) in the calculation of their bills.

**CALCULATED AWCs** - District default 135 gallons per day. Your actual 48 gallons per day.

**BLOCK 1 USAGE CALCULATION** - AWC Used for Billing PLUS 25%.

**BLOCK 2 USAGE CALCULATION** - Consumption that exceeds Block 1 usage.

**SERVICE CHARGE** - A service charge has been applied to all active accounts since 1978. The charge covers certain fixed costs of providing water services, such as meter reading and billing, meter maintenance and replacement, distribution mains maintenance and replacement, and fire protection. For a detailed description go to [www.waterone.org/Rates](http://www.waterone.org/Rates).

**CUSTOMER SECURITY DEPOSIT** - A security deposit may be required from customers who have not paid a bill prior to the date of disconnect, have a returned payment, or are determined by WaterOne to be an undependable credit risk.

**PAYMENT OPTIONS**
